Legacy Program

The ASSP Foundation 1911 Founders Society is named to honor the year that ASSP was officially launched, just months after one of the deadliest workplace disasters in U.S. history—the Triangle Shirtwaist Factory fire, which killed 146 workers in a New York City garment factory in 1911.

These donors have chosen to take advantage of various charitable giving vehicles in ways that enable them to impact the ASSP community and leave a legacy.
